

Product Specification Sheet - Full Product Line

X6 Series - Automatic Fabric Spreading Machine	
Spreading Width	1600 / 1900 / 2100 / 2400 / 2600 / 3100 mm
Max Speed	100 m/min
Max Roll	Diameter 500 mm / Weight 150 kg
Edge Alignment	Fully automatic
Fabric Type	Knitted & Woven fabrics
Motor	Dongwei Servo (proprietary R&D)

XC60 - Integrated Cutting & Spreading System	
Cutting Width	1600 / 1900 / 2100 / 2400 / 2600 mm
Cutting Length	Standard 9.6 m (8 sections). Customizable 5-20 m
Cutting Mode	Computer contour cutting (curves capable), not knife
Control Motor	Dongwei Servo std / Fuji Servo Japan optional
Configuration	1 cutting + 2 spreading (1-to-2), scalable 1-to-3 / 4
Vacuum System	18.5 KW / 30 KW (by bed length / pressure)

LU Series - Automatic Fabric Loading Machine	
Model	LU-160 / 190 / 210 / 260 / 310
Max Load	200 kg
Motor	Dongwei Servo
Function	Auto feeding / loading fabric to the spreader
Width	1600 - 3100 mm

LS Series - Fabric Relaxing / Loosening Machine	
Model	LS-210 / 260 / 310
Motor	Dongwei Servo
Function	Relax fabric tension before spreading
Width	2100 / 2600 / 3100 mm

Heat Transfer Machine - Full-auto Smart	
Working Range	9 - 14 cm
Heating Option	With steam heating / Without steam heating
Function	Heat transfer for garment labels & logos
Control	Automatic smart control

Why JUBMW?

Direct Manufacturer:	Factory price from Shandong, China. No middlemen.
Proven Tech:	Dongwei servo (std) + Fuji servo (optional) - reliable core.
15+ Years:	Exported to VN, IN, ID, EG, AL and more.
Flexible Config:	Scalable 1-to-2 up to 1-to-3 / 4 per capacity need.
Full Support:	Video training, spare parts, technical guidance included.
